

Dome School – Application for Scholarship

Our financial aid program is quite limited and scholarship money is not available for September tuition. Once the application has been submitted, parents can check availability of funds when paying tuition each month.

If awarded a grant, please understand there are no guarantees that the award will remain intact from month to month. In order to fairly distribute available scholarship money, we need to have similar information from each interested family. For each of the items below, please fill in one of the two blanks which follow.

If an income or expense items is always the same every month, use the first blank to show the regular monthly amount. If an item varies from month to month, use the second blank to show the average monthly amount (total for 1 year divided by 12).

Use estimates if you have to. Please go through and be honest. If you have any questions, please don't give up. We will gladly help anyone fill out this form.

Thank you for your cooperation,
- Susan and Jessica

NAME _____
